PREFACE

This report has been developed under the auspices of the Health Facilities Planning Act (20 ILCS 3960), which states in part:

“ Sec. 5.3. Annual report of capital expenditures.

In addition to the State Board's authority to require reports, the State Board shall require each health care facility to submit an annual report of all capital expenditures in excess of \$200,000 (which shall be annually adjusted to reflect the increase in construction costs due to inflation) made by the health care facility during the most recent year. ”

The data were collected and compiled by the Illinois Department of Public Health, Office of Policy, Planning and Statistics, Division of Health Systems Development. HEALTH CARE FACILITIES IN ILLINOIS REPORT OF ANNUAL CAPITAL EXPENDITURES -- 2014

INTRODUCTION

This report has been developed by the Illinois Department of Public Health under the auspices of the Health Facilities and Services Review Board (state board) and Health Facilities Planning Act [20 ILCS 3960/5.3]. The act requires the state board to collect information on the capital expenditures of health care facilities throughout the state. Specifically, the information requested consists of the following:

- All capital projects for which \$333,000 or more was expended or obligated within the reporting period¹;
- A brief description of the project;
- The amount and method of financing;
- If a Certificate of Need permit has been issued, the number of that permit; and
- Anticipated capital projects for the following year.

This report is for calendar year 2014. The facilities surveyed include:

- Hospitals licensed under the Hospital Licensing Act – excludes federal facilities;
- Long-term care facilities (LTCs), licensed under the Nursing Home Care Act – skilled nursing, and facilities for the developmentally disabled (DD facilities);
- Ambulatory surgical treatment centers (ASTCs) licensed under the Ambulatory Surgical Treatment Center Act – except facilities only providing pregnancy termination and
- End stage renal dialysis facilities (ESRDs).

It should be noted that this report does not include the following:

- Facilities not listed above (e.g., sheltered care, assisted living, state-owned facilities) and;
- Capital projects/expenditures below the reporting threshold (except as noted).

¹ \$333,000 is the reporting threshold specified in the Health Facilities Planning Act. Some facilities have reported capital projects below that threshold. Where this has occurred, those data are included in this report.

HEALTH CARE FACILITIES IN ILLINOIS REPORT OF ANNUAL CAPITAL EXPENDITURES – 2014

The data were collected using questionnaires sent to facilities early in calendar year 2014. The accuracy of the submittals is attested to by the person certifying for the facility as being “true and accurate.”

SUMMARY OF FINDINGS

The following is a summary of findings from the information provided:

- \$2.874 billion in capital expenditures was reported by all facilities:
 - \$2.5 billion or 87.0 percent of all expenditures was reported by hospitals;
 - \$288.1 million or 10.0 percent was reported by long-term care facilities (LTC);
 - \$73.3 million or 2.5 percent was reported by end stage renal dialysis facilities (ESRD);
 - \$11.8 million or 0.4 percent was reported by ambulatory surgical treatment centers (ASTC).

Table I provides information concerning fiscal year 2014 capital expenditures and related information for those Illinois health care facilities that reported data.

Table I
**SUMMARY OF ILLINOIS HEALTH CARE FACILITIES CAPITAL
EXPENDITURES AND RELATED DATA FOR FISCAL YEAR 2014²**

Facility Type	Number of Facilities Surveyed	Total Capital Expenditures Incurred or Obligated
Hospitals	213	\$2,500,730,413.09
ASTCs	141	\$11,806,652.12

ESRDs	234	\$73,272,014.33
TOTALS	1625	\$2,873,948,550.99

² Several facilities provided services that were subject to different licensing requirements. For instance, some hospitals provided nursing services. To avoid double counting capital expenditures, facilities were counted only once and assigned to the facility type based upon the primary service that was provided.

**HEALTH CARE FACILITIES IN ILLINOIS
REPORT OF ANNUAL CAPITAL EXPENDITURES – 2014**

Facilities reported 817 capital expenditures in excess of the \$333,000 threshold. These expenditures totaled \$1,697,086,197, which was 58.7 percent of all capital expenditures reported.

The breakout of the 817 expenditures in excess of the threshold is as follows:

SURVEY FINDINGS -- ASTCs

There were 141 ASTCs that were licensed and reported data at the end of 2014. Survey instruments were sent to all licensed ASTCs. Any ASTC whose capital expenditure questionnaire could be associated with a hospital was not included to prevent double counting of hospital expenditures. Sixty-nine (69) facilities reported “zero” or no capital expenditures for 2014.

The following is a summary of findings for ASTCs:

- Total reported capital expenditures were \$11,806,651 based upon data from facilities that reported expenditures for 2014.
- Of the facilities reporting capital expenditures for 2014, there were one facilities with capital expenditures in excess of \$1 million.

SURVEY FINDINGS -- LTCs

Long-term care (LTC) facilities include all facilities that are licensed by the Department of Public Health under the Nursing Home Act. These facilities provide skilled or intermediate nursing and sheltered care services. The August 2000 amendments to the planning act exempted sheltered care facilities from certificate of need requirement. All facilities that provide shelter care with other nursing services received the capital expenditure questionnaire. Any LTC facility whose capital expenditure questionnaire could be associated with a hospital was not included to prevent double counting of hospital expenditures. In addition, all state-owned facilities were excluded from the report leaving a total of 1037 long-term care facilities reporting.

% of LTC Expenditures	64.1%	17.9%	18.1%	0%

The following is a summary of findings for LTC facilities:

- Total capital expenditures for LTC facilities were \$288,139,470 based upon data for 1,037 facilities that reported expenditures for 2014. There were 319 facilities that reported no expenditures in 2014.
- Over 64 percent of the capital expenditures (in excess of \$184 million) were incurred by the 42 facilities (4.0 percent) that reported total capital expenditures for 2014 of more than \$1 million.

SURVEY FINDINGS -- ESRDs

End stage renal dialysis (ESRD) facilities include all facilities that are licensed by the Department of Public Health under the Nursing Home Act. These facilities provide in-center hemodialysis services. All facilities that provide in-center hemodialysis services received the capital expenditure questionnaire. Any ESRD facility whose capital expenditure questionnaire could be associated with a hospital was not included to prevent double counting of hospital expenditures. A total of 234 end stage renal dialysis facilities are included in this analysis of capital expenditures.

This section of the report contains data tables pertaining to individual facilities. The tables include a list of facilities for which reported total capital expenditures were greater than zero (0). Data concerning individual facilities consists of the total reported amount of capital expenditures for 2014.

The data are organized by facility type (e.g., ASTC, ESRD, Hospital and LTC) and arranged according to health service area (HSA) boundaries. A map of the HSAs is provided. Within each HSA, the information is sorted alphabetically first by city, and then by facility name.

The following is a list of the data tables that are contained in the remainder of this report:
